Guardian ECG - 100G

The new Guardian ECG-100G – a single-channel ECG recorder that is fast and straightforward to use. When all you are wanting is a simple single-channel trace, the ECG-100G is perfect and can be readied and running within seconds. It can be used anywhere, powered by the internal Lithium rechargeable power source.

Best of all is the build quality of the ECG-100G, coupled with the incredible value for money. It will provide years of reliable operation for a modest purchase price – and is supported by a full 2 year parts and labour guarantee.

- **Single channel ECG recording** – in automatic or manual modes
- **Clear LCD display** – shows individual leads and operating parameters, with brightness and contrast adjustment
- **Thermal printer array** – with easy-to-fit 50mm paper roll
- **Lithium rechargeable power supply** - with 4 hour fast charge time and long working duration (can also be mains operated)
- **Clear and simple controls** – easy to clean touch-pad
- **Choice of operating parameters** – speed, sensitivity and filters can be adjusted across all 12 channels

Technical Specification:

- **Dimensions:** 315mm (L) x 215mm (W) x 77mm (H)
- **Weight:** 2.25kg
- **Accessories:** Patient cable, mains lead, chest suction electrodes, limb clamps, ground lead, instructions
- **Power supply:** Mains 240v/lithium rechargeable supply
- **Paper speed:** 25mm/s, 50mm/s
- **Sensitivity:** 5mm/mv, 10mm/mv, 20mm/mv
- **Modes:** Automatic 12 channel / manual 12 channel

GECG-100G	Guardian ECG-100G	**£599.00**
Accessories for ECG-100G:		
10.050.03	ECG paper rolls 50mm x 30m, each	**£1.99**

Guardian ECG - CMS80

Convenient, robust and portable – the Guardian CMS80 ECG is designed for community and field ECG recording, where a single channel ECG tracing is required. A full 12 channel ECG can be taken in an instant, either in automatic mode or by manually switching the channels.

The CMS80 includes HandHeart PC software as standard, allowing you to view the live 12 channel ECG on the PC screen, save and print as required. This simple software adds another level of versatility to the CMS80 device.

- **Large 70mm LCD display** – view each of the 12 leads independently and selected parameters
- **Thermal printer** – prints single channel tracing on 57mm wide paper
- **Simple controls** – intuitive button arrangement and logical processes
- **HandHeart PC software** – included as standard, with USB connection cable
- **Compact and light** – just 190 x 90 x 60mm and 800 grams!
- **Robust** – durable design with rubber bumpers for added protection
- **7.4v Lithium power supply** – the added convenience of a rechargeable power source, can also be mains powered

The Guardian ECG - CMS80 is supplied with patient cable, mains power supply, chest suction and limb clamp electrodes, PC software and cable, and full user instructions.

Section I ECG 3/6 Channel ECG Machines

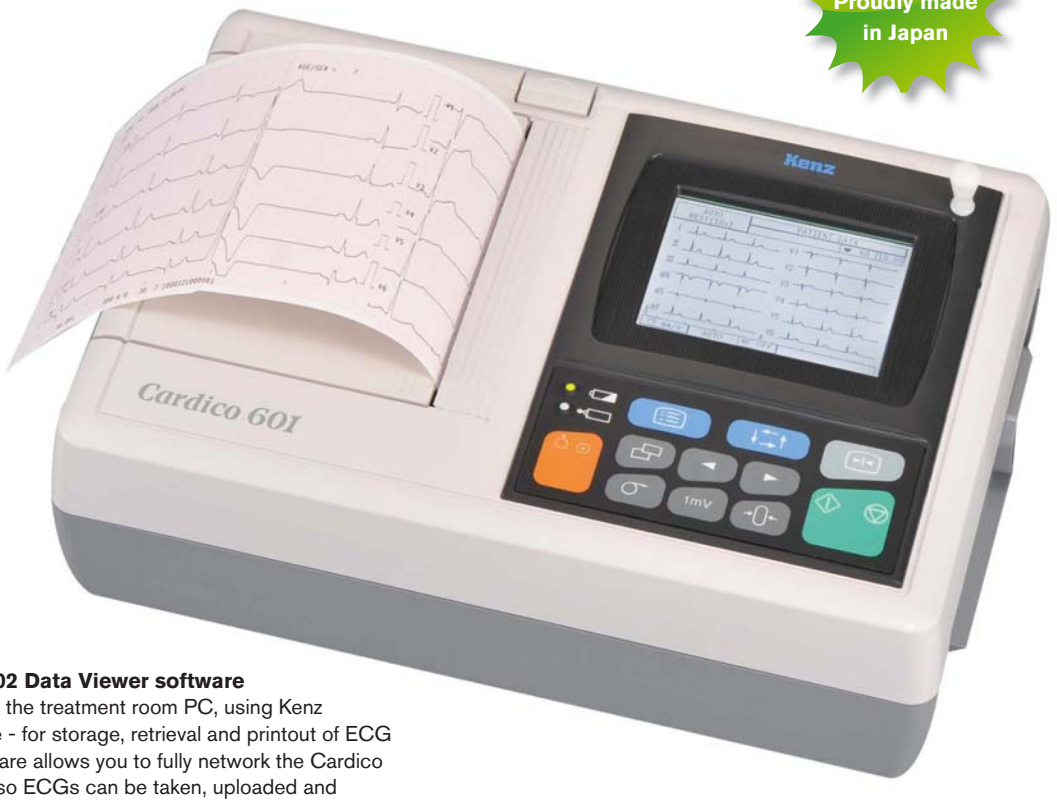
Kenz Cardico 601 ECG

The new Cardico 601 from Kenz is a compact, feature-packed portable ECG recorder with convenient touch-screen control of operation and information entry. Features such as mode and parameter settings, patient data entry and function controls are selectable by a tap of the finger or stylus pen (stored at the side of the screen).

The Cardico 601 is fast and simple to use, providing an ECG to your exact specification at the touch of a single button. But it can also do much, much more.

Available Demo Installation & Training call today

Kenz® Proudly made in Japan

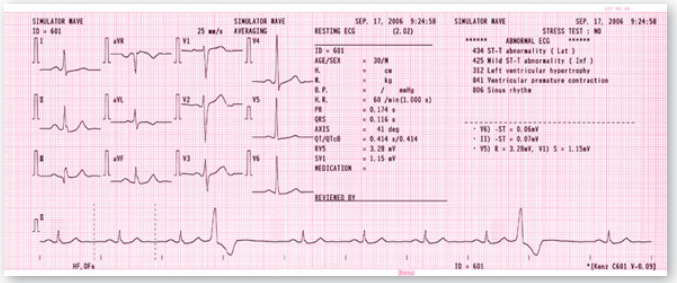


3 YEAR MANUFACTURERS GUARANTEE

PC Compatible, with CVS02 Data Viewer software
Cardico 601 can be linked to the treatment room PC, using Kenz CVS02 Data Viewer software - for storage, retrieval and printout of ECG records. CVS02 server software allows you to fully network the Cardico 601 throughout the practice so ECGs can be taken, uploaded and viewed at any point throughout the practice that you choose.

Arrhythmia monitoring and summary mode
This mode displays and prints out the full disclosure, histogram and summary report for Supra-Ventricluar Premature Contraction, Ventricular Premature Contraction and Atrial Fibrillation - based on leads II and V1 for 1 to 5 minutes and continuous for arrhythmia patients.

- **Touch-screen operation** – the fastest and simplest way to control the device
- **12 channel ECG display** – visualise all ECG leads as one group
- **3, 4 or 6 channel printout** – flexible reporting on 112mm paper
- **Multiple print modes** – automatic, manual and specialist tests
- **Memory for 40 ECGs** – review and download records
- **PC and network ready** – requires CVS02 software (see next page)
- **MADE IN JAPAN** – quality assured
- **3 year guarantee** – peace of mind reliability



Technical specification:

- **Power supply:** mains 240v or internal nimh rechargeable battery
- **Dimensions:** 290mm (w) x 200mm (d) x 70mm (h)
- **Weight:** 2.1kg
- **Filters:** Digital AC, drift and muscle tremor (x2)
- **Rec speed:** 5, 10, 12.5, 25, 50 mm/s
- **Rec sensitivity:** 2.5, 5, 10 and 20 mm/mv
- **Accessories:** patient cable, mains lead, reusable electrode set, disposable electrode set, full user instructions

Section I ECG 3/6 Channel ECG Machines

Cardioline ar1200viewbt

Easy view - clear recordings

The latest generation of ECG from Cardioline, featuring multiple levels of performance in a multichannel ECG. Recording with all the features of reliability, versatility and low operating costs that characterise CARDIOLINE electrocardiographs.

Main features

- **LCD colour display** - real time ECG display in 3, 6 and 12 channels.
- **Multi-channel print format** - on 120 mm paper: 3, 3+R, 6, 12 channels.
- **Multiple recording modes** - automatic, manual and pre-programmed mode
- **Alphanumeric keyboard** – fast and easy data entry
- **Z-fold paper packs** – easy page separation
- **Dual independent power supply** – mains and/or rechargeable internal batteries
- **Memory recall** - of the last ECG recording and to print a copy
- **Event detection buzzer** – automatically determines patient events
- **Bluetooth communication** – for seamless PC connection and digital archiving
- **3 Year Guarantee** – unquestionable reliability and peace of mind

Major benefits of the ar1200viewbt include

- **Efficient and fast control of the recording quality** - with the new electrodes management system and thanks to the multi-channel graphic display, you are able to visualize the ECG signal before and during a recording with no need to print out immediately on paper.
- **Safe and easy wireless connection** - Bluetooth Class I (up to 100m).
- **User-friendly interface** - the liquid crystal display and a simplified set of alphanumeric keys ensure quick and trouble-free use under any conditions, and dependable ECG examination and patient management.
- **Easily adapted to suit your individual requirements** - the selection of options offered has no restrictions or constraints, it has no effect on day-to-day use of the instrument and upgrades can be made directly at your clinic or surgery.

Technical specification:

- **Dimensions**: 320mm (L) x 72mm (H) x 240mm (d)
- **Weight:** 2150 grams
- **Power supply:** mains 240v/rechargeable NiMh internal cells
- **Paper speeds:** 5, 10, 12.5, 25, 50 mm/s
- **Paper sensitivities:** 2.5, 5, 10, 20 mm/mv
- **Display:** 4.3" LCD TFT 480 x 272 pixels
- **Accessories included:** patient cable, power lead, disposable tab electrodes x 100, tab adaptors x 10, ECG ruler and full user instructions

80509571	ar1200viewbt ECG	**£2209.00**

ar1200viewbt OPTIONS:

Memory option

Storage of up to 200 full ECG exams, with no need to print out the ECG

9ME120BT	Memory Option	**£245.00**

PC archive option

Archival storage of the ECG in a personal computer running Cardioline CUBE software for ECG management (available separately). The data upload is via bluetooth; no direct connection to the PC is required

9PC120BT	PC archive option	**£169.00**

ECG analysis/interpretation program option

A useful and dependable diagnostics support program. The results obtained by analysing the 12 leads simultaneously, can be printed out in a "physician tailored layout" following the methodology with which a Physician would read an ECG

9IN120BT	ECG analysis/interpretation program option	**£555.00**

PC ECG option

Real time display of the 12 ECG leads on a PC with Cardioline CUBE ECG management software (available separately). The software can offer an optional module for automatic interpretation of the ECG signal (on request).

9RT120BT	PC ECG program option	**£199.00**

Accessories and Options for AR1200 ECG:

63090210	Infrared PC adaptor	**£100.50**

Guardian ECG - 300G

The best features and value-for-money of any ECG in it's class – by far

The new Guardian ECG-300G – a three and six channel ECG recorder with full colour LCD display that guides you simply through the ECG controls, using clear iconography. The ECG-300G can be set up to provide an ECG report to the physician's specification and obtaining a report is both fast and straightforward. It can be used anywhere, powered by the internal Lithium rechargeable power source.

The ECG-300G offers unbeatable value-for-money, coupled with reliability, simplicity and great build quality. It will provide years of reliable operation for a modest purchase price – and is supported by a full 2 year parts and labour guarantee.

- **3 and 6 channel ECG recording** – in automatic or manual modes
- **Interpretation program** – supplied as standard, to assist in the analysis of the ECG
- **PC ready** – with RS232 and USB connections
- **Clear 90mm colour LCD display** – shows individual leads and operating parameters, with brightness and contrast adjustment
- **Clear, icon based sub menus** – setting up your ECG is easy and intuitive
- **Thermal printer array** – with easy-to-fit 80mm paper roll
- **Lithium rechargeable power supply** - with 4 hour fast charge time and long working duration (can also be mains operated)
- **Soft-touch control pad** – easy to clean
- **Choice of operating parameters** – speed, sensitivity and filters can be adjusted across all 12 channels

Technical Specification:

- **Dimensions:** 315mm (L) x 215mm (W) x 77mm (H)
- **Weight :** 2.25kg
- **Accessories:** Patient cable, mains lead, chest suction electrodes, limb clamps, ground lead, instructions
- **Power supply:** mains 240v/lithium rechargeable supply
- **Paper speed:** 25mm/s, 50mm/s
- **Sensitivity:** 5mm/mv, 10mm/mv, 20mm/mv
- **Modes:** Automatic 12 channel/manual 12 channel

Section I ECG 3/6 Channel ECG Machines

Guardian ECG - 600G

The new Guardian ECG-600G – a six channel digital ECG recorder, with a superb touch-screen display showing live 12 channel ECG and the simplest of controls. All features can be accessed in an instant by simply tapping the relevant box, i.e. speed, sensitivity, filters, leads and selecting the option you require from the pop up window that appears. The generous size of the super bright colour 800 x 480 TFT screen allows the user to see the full ECG along with the control parameters at the same time.

The ECG-600G offers unbeatable value-for-money and includes the following functions as standard:

- **Auto analysis and auto interpretation**
- **USB and serial PC connection**
- **Internal memory for 1000+ ECG's with patient data**
- **Simultaneous 12 lead display**
- **Full-colour TFT touch-screen** – largest in it's class
- **Interpretation program** – supplied as standard, to assist in the analysis of the ECG
- **PC ready** – with RS232 and USB connections
- **Clear, icon based sub menus** – setting up your ECG is easy and intuitive
- **6 channel printout** – in a choice of 10 print configurations, on 110mm paper roll
- **Lithium rechargeable power supply** - with 4 hour fast charge time and long working duration of 90 minutes continuous or 150 ECG's (can also be mains operated)
- **Choice of operating parameters** – speed, sensitivity and filters can be adjusted across all 12 channels

Plus, the ECG 600G is supported by a full 2 year parts and labour guarantee!

AW Select ECG Trolley with 3 shelves/drawers

- High quality ECG trolley for secure storage of ECG accessories
- Available with drawer unit (shown) or with a second sliding shelf
- Cable arm provides neat and tidy kink free storage for ECG cable
- 50cm x 45cm working surface provides large non-slip working surface
- Lower shelf slides out for easy access
- Durable white epoxy resin finished metal framework, with white melamine shelves
- Attractive blue and white finish
- 82cm overall height
- Free running 75mm antistatic castors with 2 brakes
- Flat packed but very easy to assemble

AWS-MW10540CB	Select ECG Trolley with drawer	**£499.00**
AWS-MW10542CB	Select ECG Trolley with sliding shelf	**£475.00**

Universal ECG Trolley

- Robust, hard-wearing ECG trolley
- Optional: Patient cable boom (as pictured)
- Large platform in tough plastic fits all ECG machines
- Easy to clean surfaces
- Steel framework in complimentary royal blue finish
- Large 80mm castors with brakes
- Drawer as standard
- Shelf with formed compartments for accessory storage
- Excellent value for a quality trolley

63090220	Universal ECG Trolley	**£325.00**
63090136	Patient cable arm	**£140.00**

AW Select Medi-Wagon ECG Trolley

- Height adjustable from 75cm to 100cm
- Large working platform of 50cm x 60cm
- 4 large 100mm castors with 2 brakes
- 2 large drawer units for safe, tidy and secure storage of accessories
- Cable arm for safe, kink free storage of ECG cable

AWS-MW500HVCB	AW Select Medi-Wagon ECG Trolley	**£610.00**

Guardian Press-Stud ECG Electrodes

- A range of pregelled ECG electrodes designed to give excellent adhesion and signal transmission, ideal for long-term monitoring and stress test ECG
- Press-stud connections (requires 63090236 adaptors, shown below)
- Foam backed with a choice of solid or aqueous gel conductor
- Silver / Silver Chloride (Ag/AgCl) sensor
- 24 month shelf life

99.830.03 **£3.80**
Adult 50mm solid gel, pack of 30

99.830.17
Child 30mm solid gel, pack of 30 **£4.25**

99.832.02 **£4.25**
Adult 50mm aqueous gel, pack of 30

A full range of ECG spares and accessories are available on request. Please call for details of other spare parts, including replacement patient cables

Q-Trace Gold Resting ECG Electrodes

- **Single-Use Tab Electrodes** – suitable for resting ECG
- **Silver/Silver Chloride Contact** – superb contact and signal strength
- **Manufactured by Tyco Healthcare** – quality assured
- **Choice of pack sizes** – available in sachets of 100 electrodes and boxes of 5 x 100 electrodes

QTE5500 **£9.00**
Q-Trace Gold Electrodes, pack 100

QTE5500/5 **£35.00**
Q-Trace Gold Electrodes, box 5 x 100

Guardian ECG Tab Electrodes

- **Single-Use Tab Electrodes** – suitable for resting ECG
- **Silver/Silver Chloride Contact** – good skin contact and signal strength
- **High Quality** – reliable and easy to use
- **Superb Value** – lower cost without compromising quality
- **Choice of pack sizes** – available in sachets of 100 electrodes and boxes of 5 x 100 electrodes

99.832.38 **£7.65**
Guardian Tab Electrodes, pack of 100

99.832.38/5 **£29.00**
Guardian Tab Electrodes, 5 x 100

Reusable ECG Electrodes

- **Reusable Electrodes** – Silver/Silver Chloride for good signal strength
- **Chest Electrodes** – traditional suction-cup type
- **Limb Electrodes** – clamp-type in adult or paediatric sizes, colour-coded

63030163 **£11.00**
Suction-cup chest electrode, each

63030163/6 **£59.90**
Suction-cup chest electrode x 6

63030106 **£48.00**
Limb clamp electrodes, adult, set of 4

63030107 **£54.00**
Limb clamp electrodes, paediatric, set of 4

8733405 **£6.50**
Limb electrode plate, without strap, each

8940438 **£2.40**
Rubber limb strap, for use with 8733405 electrode

Other ECG accessories

99.800.35 **£2.45**
Guardian ECG electrode gel, 250ml

66020028 **£6.00**
ECG Ruler

Connectors and Clips for Single-Use Electrodes

Press-Stud Adaptors

- For use with Monicom and other press-stud electrodes
- 4mm lead fitting
- Sold in set of 10 for convenience

63090236 **£33.50**
Set of 10 press-stud adaptors

Alligator Adaptors – Round Type

- For use with resting ECG tab electrodes
- Easy to apply
- Available individually or in packs of 10

CA500 **£3.20**
Alligator adaptor, round, each

CA500/10 **£29.50**
Alligator adaptor, round x 10

Alligator Adaptors – Flat Type

- For use with resting ECG tab electrodes
- Easy to apply and excellent grip
- Available individually or in packs of 10

CART105 **£4.50**
Alligator adaptor, flat, each

CART105/10 **£41.00**
Alligator adaptor, flat x 10
